

RUMFORD-MEXICO SEWERAGE DISTRICT
WASTEWATER OPERATOR OPENING

The Rumford-Mexico Sewerage District has an immediate opening for a wastewater operator. Applications are available at the district's office located at 228 River Road, Mexico, ME 04257. The successful candidate will be responsible for sampling, performing various tests related to the treatment of wastewater, sludge, and compost residual management, prepare reports, perform data analysis, support maintenance functions, perform pump station inspections as well as landscaping and snow removal duties. The position includes on-call duties and weekend coverage on a rotational basis. The ideal candidate will have 3 -5 years' experience in public works, water treatment, wastewater treatment or manufacturing experience. The successful candidate must be able to lift 50-pound sacks routinely and must obtain a Grade IB Wastewater license within the first full year of employment. Job Type: Full-time. Salary: contingent on experience. A valid Maine driver's license is required.

Applications are available at the district's office located at:
228 River Road, Mexico, ME 04257 between 6am – 1:30 pm.
The application deadline is 12 noon August 6th, 2024.
